Retention & Disposal Schedule number: 2460

# INTRODUCTION

## **Overview**

## **Archives Legislation**

The Archives Act 1983 stipulates that State and local government organisations must not dispose of records of any type or format without the written approval of the State Archivist.

Disposal of records involves their destruction, their removal from custody of their creating agency, or their transfer to the Tasmanian Archive and Heritage Office.

## Schedule elements and arrangement

The administrative functions covered by this schedule are arranged in alphabetical order as function headings. The activities performed under each function are listed in alphabetical order within each function.

## Reference

All function and activity headings and disposal classes are allocated a reference number. These reference numbers are used, in conjunction with the schedule number, to identify records in the Tasmanian Archive and Heritage Office disposal documentation. These numbers can also be used by agencies, in the same way, to indicate disposal authorisation in their records control systems, where the records have been registered in these systems.

### • Disposal Classes

The groups of records that document, and are derived from, the performance of the functions and activities, are listed as disposal classes under each function/activity set.

It should be noted that Disposal Classes have been described in functional terms irrespective of the format or medium in which the records were created.

#### Status

All disposal classes have either "PERMANENT" or "TEMPORARY" status. Records identified as "PERMANENT" are those that will be transferred to the Archives Office to be retained as State archives. "TEMPORARY" records are those that can be destroyed under the authority of this schedule.

#### Disposal action

All temporary records identified in this schedule will have a disposal action which specifies the length of time for which the record must be retained, before it can be destroyed under this authorisation.

Retention & Disposal Schedule number: 2460

#### Review of the schedule

It is the responsibility of agencies to monitor administrative, legal or regulatory changes which may result in the need to alter disposal class descriptions or disposal actions for records covered by this schedule.

When this occurs, this schedule should not be used to dispose of records and the State Archivist should be informed of the need to revise the schedule. If necessary, the procedures for the disposal of unscheduled records can be used in the interim.

#### **Contacts**

Any enquiries relating to this schedule should be directed in writing to the Tasmanian Archive and Heritage Office, 91 Murray Street Hobart, by email, or by phoning 03 6165 5581.

## **Authorisation**

## **Authorisation**

Under Section 20 (2) (b) of the Archives Act 1983, I hereby authorise 'relevant authorities' (as defined in Section 3 of that Act) to manage the disposal of the records described in this schedule in accordance with the procedures specified herein.

#### **Ross Latham**

## **State Archivist**

#### **Document Development History**

Version	Date	Reason	Sections
1.0	13-09-2017	Initial release	All
1.1	20-12-2017	Disposal trigger corrected	06.04.02

# **Interpretation**

#### **Definitions**

**Permanent records** are those that will be transferred to the Tasmanian Archive and Heritage Office to be retained as State Archives. The *Archives Act 1983* establishes 25 years as the maximum required timeframe for the transfer of permanent records, unless an extension of time has been approved by the State Archivist.

#### Retention & Disposal Schedule number: 2460

**Temporary records** are those that can be destroyed under the authority of this schedule after a minimum retention period, or once certain requirements have been met.

## Coverage

This schedule covers functional records of the Tasmanian Railway Pty Limited (TasRail).

This schedule does not cover **pre-1960** records. The disposal of those records should be managed according to the procedures for unscheduled records.

The *Disposal Schedule for Short-term Value Records - DA No. 2158* covers the disposal of short-term value records which are created by most agencies. These documents are usually of a trivial nature or of such short-term value that they do not support or contribute to the business functions of the agency.

Records not covered by these schedules, or other authorised disposal schedules, should be disposed of according to the current Tasmanian Archive and Heritage Office procedures for unscheduled records.

#### Preservation of records

Section 10 (1) (a) of the *Archives Act 1983* requires agencies to preserve records until they are dealt with under the Act. This places a statutory obligation on agencies to ensure that all records, regardless of format, remain accessible while they are in the custody of the agency.

#### **Permanent Records**

All disposal classes of records identified as having '**PERMANENT**' status in this schedule should be transferred to the Tasmanian Archive and Heritage Office 25 years after the date of creation. Agencies may make application to the Tasmanian Archive and Heritage Office for earlier transfer of particular groups of records, and the Tasmanian Archive and Heritage Office may also initiate an earlier transfer arrangement.

Records for transfer should be arranged and described in accordance with any instruction provided by the Tasmanian Archive and Heritage Office.

## **Temporary Records**

All records identified as having '**TEMPORARY**' status in this schedule will have a disposal action which is the authorised date for destruction. These disposal actions specify minimum retention periods. Temporary records can be kept as long as the agency wishes following expiration of the specified period, but the provisions of the *Archives Act 1983* regarding their proper care and custody will still apply to them.

Frequently the disposal actions will refer to 'after action completed' which means after completion of the transaction to which the records relate. The disposal action 'destroy

#### Retention & Disposal Schedule number: 2460

when reference ceases' authorises the destruction of records when all business needs to refer to the records have ceased.

#### **Destruction of records**

The destruction method chosen for records authorised for destruction in this schedule, should be appropriate to the medium in which the record exists. It is the responsibility of the agency to ensure that the identified records are actually destroyed, and that this process is confidential and secure.

The following issues should be considered before destruction of any documents.

## **Right to Information**

Right to Information legislation prescribe rights and processes for access to documents held by government agencies. If a request for access under the legislation has been lodged, all records relevant to the request, regardless of whether they are due for destruction, must be identified and preserved until action on the request and any subsequent reviews are completed.

#### **Personal Information Protection**

Personal Information Protection legislation provides appropriate safeguards for government agencies in collecting and handling individual's personal information, creating statutory obligations and a right to make a privacy complaint. If an application is in progress, all records relevant to the application must be identified and preserved until the action and any subsequent actions are completed.

## Other Investigations or inquiries

If an investigation or inquiry is in progress, all records relevant to the investigation or inquiry must be identified and preserved until the action and any subsequent actions are completed.

## Records relating to indigenous people

Key recommendations of the *Bringing Them Home Report 1997* relate to the need for the identification, preservation, indexing, management and access to records relating to Indigenous individuals, families and/or communities in accordance with established privacy principles.

#### **Native Title**

#### **Retention & Disposal Schedule number: 2460**

If a native title claim is in progress, all documents relevant to the claim must be identified and preserved until the action and any subsequent actions are completed.

## **Registration of Destruction**

Central to the accountability built into the disposal schedules is the requirement that agencies maintain a *Register of Records destroyed*. It is important to recognise that the formal evidential record of destruction is contained in this registration process. The register is to be made available to the State Archivist (or his nominee) on request.

The register must be clearly identified as the *Register of Records Destroyed* (under Section 20 (2) (b) of the *Archives Act 1983*) and should include the name of the agency. The register can be the same used for registering destructions authorised under other disposal schedules. A sample format indicating the required elements for the register and related procedures are available on the Tasmanian Archive and Heritage Office website.

No	Function/Activity	Description	Status	Disposal Action
1	BOARD & GOVERNANCE	The function of supporting the activities and fiduciary duties of the TasRail Board of Directors. Includes:  • appointment and remuneration of board members  • arranging and recording meetings  • secretarial activities  • activities related to TasRail's relationship with shareholders  • management of fraud & ethics relating to board members and employees  See DA 2157 Disposal Schedule for Common Administrative Functions for the development, monitoring and reviewing of TasRail's strategic directions and for management committees.  See DA 2157 Disposal Schedule for Common Administrative Functions for activities relating to the organisational structure of TasRail.		
1.1	Appointments & Remuneration	The activities associated with making recommendations to the Government on the appointment of Board members and managing the payment, reward, or other benefits for work or services performed by Board members. Includes:

		decisions register		
		papers and discussion papers		
		reports presented to the meeting		
1.6.2		Records documenting the conduct and administration of TasRail Board meetings and the annual general meeting. Records may include:	Temporary	Destroy after reference ceases.
		production schedule calendar		
1.7	Performance Management	The activities associated with the performance management of TasRail's board. Includes:		

No	Function/Activity	Description	Status	Disposal Action
BOARD & G	OVERNANCE - Performand	ce Management		
		internal and external reporting		
		performance reviews		
		See DA 2157 Disposal Schedule for Common Administrative Functions for employee work performance.		
		See <b>SAFETY MANAGEMENT - Performance Measures</b> for development and enhancement of TasRail's safety performance measures.		
1.7.1		Records documenting the performance management of TasRail's board. Records include:	Temporary	Destroy 5 years after action completed.
		final versions of formal reports to the Board		
		<ul> <li>final versions of reports to external organisations made by the Board</li> </ul>		
		<ul> <li>final versions of reports to customers made by the Board</li> </ul>		
		performance reviews		
1.8	Shareholder Members	The activities associated with administering the formal relationship between the TasRail Board and TasRail's shareholder members. TasRail's shareholder members are the Tasmanian Government. Includes:		
		direct instructions from the Ministers		

No	Function/Activity	Description	Status	Disposal Action
BOARD & C	GOVERNANCE - Shareholde	r Members		
		See <b>BOARD &amp; GOVERNANCE - Compliance</b> for compliance activities including disclosures of pecuniary interest by members of the Board.  See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for administering the formal relationship between TasRail and Government including relationships with Ministers and Members of Parliament.		
1.8.1		Records documenting direct instructions from TasRail's shareholders.	Permanent	Retain as State Archives
1.8.2		Records documenting relations with shareholders including shareholders updates. These include:  • monthly briefing updates  • feedback from shareholders (e.g. feedback on corporate plan)  • shareholder guidelines	Temporary	Destroy 10 years after action completed.
2	ENVIRONMENTAL MANAGEMENT	The function of maintaining and protecting the environment through compliance with legislation, effective planning and response, and ongoing monitoring. Includes:  • the removal of pollutants and waste from TasRail land and infrastructure  • conservation of resources		

No	Function/Activity	Description	Status	Disposal Action
ENVIRONME	NTAL MANAGEMENT - Ad	lvice		
		remediation of contaminated property.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for complaints etc. about environmental issues, such as noise, waste dumping, etc.		
		See RAIL INFRASTRUCTURE MANAGEMENT - Vegetation management for managing and controlling vegetation in rail corridors, including weed management.		
		See <b>RISK MANAGEMENT - Controls</b> for creating, maintaining and evaluating controls for managing identified environmental risks.		
		See <b>SAFETY MANAGEMENT - Committees</b> for all internal and external committees pertaining to Health, Safety and Environment.		
		See <b>SAFETY MANAGEMENT</b> for developing and managing safety management systems.		
2.1	Advice	The activities associated with giving and receiving advice on Environmental Management issues relating to TasRail.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services to the community, non-government parties, professional bodies, interest groups etc.		

No	Function/Activity	Description	Status	Disposal Action
ENVIRONM	IENTAL MANAGEMENT - AC	dvice		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.  See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for legal advice furnished to TasRail by external and internal sources.		
2.1.1		Records documenting the receipt and provision of internal and external advice on environmental issues.	Temporary	Destroy 7 years after action completed.
2.2	Compliance	The activities associated with complying with environmental standards or requirements to which TasRail is subject relating to the Environment Management function. Includes: compliance with:  • legislation  • national standards  • international standards		
		See <b>SAFETY MANAGEMENT - Compliance</b> for ensuring compliance with safety standards or requirements.		
		See ENVIRONMENTAL MANAGEMENT - Inspections for inspecting facilities, property,

		equipment, infrastructure, and items, to ensure compliance with agreed standards.		
		See <b>POLICY &amp; CONTROLLED DOCUMENTATION</b> for developing, approving and implementing TasRail's controlled documentation including policies, procedures, standards and technical specifications for all TasRail operations.		
2.2.1		Records documenting compliance with standards or statutory requirements supporting the Environmental Management function.	Temporary	Destroy 7 years after action completed.
2.3	Conservation	The activities involved in the remediation of railway reserves and railway land. Includes:		
		<ul> <li>remediation of land contaminated by hazardous waste</li> </ul>		
		See <b>RAIL INFRASTRUCTURE - Heritage Conservation</b> for the preservation, protection, remediation, restoration and enhancement of rail infrastructure identified as having heritage significance.		
		See DA 2158 Disposal Schedule for Short Term Value Records for working papers not considered necessary to substantiate remediation projects.		
		See <b>RAILWAY LAND MANAGEMENT</b> for managing railway land, including railway corridors and railway reserves.		

No	Function/Activity	Description	Status	Disposal Action
ENVIRONM	MENTAL MANAGEMENT - Co	onservation		
2.3.1		Records documenting the activities involved in the restoration and remediation of railway reserves and other railway land after the removal of pollutants and waste.	Permanent	Retain as State Archives
2.4	Contamination	The activities associated with preventing, managing and remediating environmental contamination. Includes:		
		contamination registers		
		See <b>ENVIRONMENTAL MANAGEMENT - Inspections</b> for official inspections of contaminated waste and contaminated land.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for environmental mishaps.		
		See <i>DA 2158 Disposal Schedule for Short Term Value Records</i> for working papers not considered necessary to substantiate contamination projects.		
		See <b>RISK MANAGEMENT - Controls</b> for creating, maintaining and evaluating controls for managing identified environmental risks.		
2.4.1		Records documenting preventative measures and the overall management of environmental contamination in buildings, rail infrastructure, land and water where hazardous materials are involved. Includes:	Permanent	Retain as State Archives

No	Function/Activity	Description	Status	Disposal Action
ENVIRONM	MENTAL MANAGEMENT - In	plementation		
		the treatment and disposal of contaminated waste (including asbestos, chemicals, lead, hazardous concentrates and contaminated soils)		
		Records include:		
		contamination registers		
2.5	Implementation	The activities associated with implementing plans, policies, procedures or instructions, or a service relating to the Environment Management function. Includes:		
		<ul> <li>monitoring and continuous improvement</li> <li>implementation of recommendations from the Office of the National Rail Safety Regulator</li> </ul>		
		See <b>ENVIRONMENTAL MANAGEMENT - Reviewing</b> to re-evaluate the objectives of the plans, policies, procedures or instructions to be implemented.		
2.5.1		Records documenting the implementation of plans, policies or procedures relating to the Environmental Management function.	Temporary	Destroy 5 years after action completed.
		Records include:		
		annual environmental management audits		

No	Function/Activity	Description	Status	Disposal Action
ENVIRONM	ENTAL MANAGEMENT - Insp	pections		
		post implementation reviews		
2.6	Inspections	The process inspecting facilities, property, equipment, infrastructure, and items, to ensure compliance with agreed standards and objectives relating to environmental management. Includes:  • inspections of contaminated waste  See SAFETY MANAGEMENT - Incidents for inspections records relating to an incident.  See ENVIRONMENTAL MANAGEMENT - Compliance for records relating to compliance with environmental standards and regulations.  See ENVIRONMENTAL MANAGEMENT - Contamination for contamination registers.		
2.6.1		Records documenting inspections for environmental contamination to ensure compliance with agreed standards and objectives relating to environmental management. Inspections are carried out on:  • facilities  • property  • equipment  • infrastructure	Temporary	Destroy 7 years after action completed.

No	Function/Activity	Description	Status	Disposal Action
ENVIRONME	NTAL MANAGEMENT - Lice	ences & Permits		
		• items		
2.7	Licences & Permits	The activities associated with obtaining licenses and environmental permits. Includes:  • environmental protection and biodiversity conservation permits  • trade waste permits  • sewer discharge permits  • waste water licensing  See RAILWAY LAND MANAGEMENT - Licences & Lease Agreements for licences and lease agreements relating to railway land.		
2.7.1		Records documenting licenses and environmental permits. Records include:  • applications  • permits  • associated licence and environmental permit correspondence.	Temporary	Destroy 7 years after expiry or termination of licence or agreement.
2.8	Meetings	The activity of holding meetings relating to environmental management, within TasRail and with external organisations.		

No	Function/Activity	Description	Status	Disposal Action
ENVIRONME	ENTAL MANAGEMENT - Me	eetings		
		See DA 2157 Disposal Schedule for Common Administrative Functions for TasRail's Executive Committees and meetings.		
2.8.1		Final version of meeting documentation relating to Environmental Management. Records include:  • meeting notes  • invitations  • meeting schedules	Temporary	Destroy 3 years after action completed.
2.9	Planning	The activity of developing an environmental management plan for TasRail. Includes:  • final versions of the Environmental Management Plan  See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.  See RAIL INFRASTRUCTURE MANAGEMENT - Vegetation management for Weed Management Plans.  See ENVIRONMENTAL MANAGEMENT - Reviewing for reviews relating to the Environmental Management function.		

No	Function/Activity	Description	Status	Disposal Action			
ENVIRONME	ENVIRONMENTAL MANAGEMENT - Planning						
2.9.1		Final versions of approved TasRail environmental management plans.	Permanent	Retain as State Archives			
2.9.2		Records documenting the development of the environmental management plan. Includes:  • working papers  • reports analysing issues  • comments received from other areas of TasRail  • minor edits, updates or amendments to the final plan	Temporary	Destroy 7 years after action completed.			
2.10	Reporting	The activity of initiating or providing reports relating to the Environment Management function.  See BOARD & GOVERNANCE - Meetings for reports presented to the Board.  See SAFETY MANAGEMENT - Incidents for reporting incidents, near misses and other notifiable occurrences.  See DA 2157 Disposal Schedule for Common Administrative Functions for annual reports.  See DA 2158 Disposal Schedule for Short Term Value Records for working papers and draft reports.					

No	Function/Activity	Description	Status	Disposal Action			
ENVIRONME	ENVIRONMENTAL MANAGEMENT - Reporting						
2.10.1		Final versions of non-significant reports relating to Environmental Management. Includes:  • internal reports  • reports provided to external organisations  • published reports  • internal statistical reports  • internal survey reports  See BOARD MANAGEMENT - Meetings or Committees for significant reports relating to Environmental Management.	Temporary	Destroy 5 years after action completed.			
2.11	Reviewing	The activities involved in undertaking reviews relating to the Environmental Management function. Includes:  • recommendations resulting from these activities  • advice resulting from these activities  See ENVIRONMENTAL MANAGEMENT - Planning for the development of the environmental management plan.					
2.11.1		Records documenting the review of environmental management programs, operations and services.	Temporary	Destroy 5 years after action completed.			

No	Function/Activity	Description	Status	Disposal Action
ENVIRONM	ENTAL MANAGEMENT - Was	ste Management		
2.12	Waste Management	The activities associated with the management of all by-products of natural biological and human activities including wastewater (whether harmful or not). Includes measures such as minimisation and reduction. Also includes waste:  • collection  • storage  • transportation  • transfer  • processing  • treatment  • disposal		
2.12.1		Records documenting waste management and recycling programs for non-biodegradable waste that is hazardous and toxic to the environment. Includes:  • tyres  • e-waste  • compact fluorescent lights  • batteries	Permanent	Retain as State Archives

No	Function/Activity	Description	Status	Disposal Action			
ENVIRONMEN	ENVIRONMENTAL MANAGEMENT - Waste Management						
		Includes records related to non-biodegradable waste:					
		<ul><li>transfer</li><li>processing</li><li>treatment</li><li>disposal</li></ul>					
2.12.2		Records documenting waste management and recycling programs for biodegradable waste that is not hazardous or toxic to the environment. Includes:  • newspapers  • cardboard  • green waste  Includes records related to biodegradable waste:  • collection  • storage	Temporary	Destroy 7 years after action completed.			

No	Function/Activity	Description	Status	Disposal Action

		treatment		
		• disposal		
3	FREIGHT SERVICES	The function of managing bulk, intermodal and other freight services (e.g. logs), to TasRail's customers by rail, road and sea. Includes:		
		train preparation, consist, loading, unloading and the storage of freight		
		road freight handling		
		handling and storage of bulk material such as iron ore		
		ship loading and all aspects of terminal operations		
		<ul> <li>provision of freight services to TasRail customers and stakeholders.</li> </ul>		
		See <b>RAILWAY LAND MANAGEMENT</b> for the management of railway land and radio sites.		

No	Function/Activity	Description	Status	Disposal Action
FREIGHT SI	ERVICES - Advice			
		See <b>ROLLINGSTOCK MANAGEMENT</b> for TasRail's railway vehicles.		
		See <b>SAFETY MANAGEMENT</b> for implementing, maintaining, monitoring, evaluating, and reviewing safety management systems legislation.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for the maintenance of bulk handling facilities.		
3.1	Advice	The activities associated with offering and receiving advice relating to the Freight Services function.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services to the community, non-government parties, professional bodies, interest groups etc.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for legal advice furnished to TasRail by external and internal sources.		
3.1.1		Records documenting the receipt and provision of advice relating to Freight Services.	Temporary	Destroy 7 years after action completed.

No	Function/Activity	Description	Status	Disposal Action			
FREIGHT SE	REIGHT SERVICES - Customer & Stakeholder Management						
3.2	Customer & Stakeholder Management	The activities associated with the provision of freight services to TasRail customers and stakeholders. Includes:					
		customer enquiries					
		liaison and meetings with customers					
		customers reactions to TasRail's services.					
		See PROCUREMENT & CONTRACTING - Agreements & Contracts the establishment, maintenance, review and negotiation of agreements and contracts including service agreements.  See FREIGHT SERVICES - Service Delivery for the transportation of freight including deliveries and collection of freight by means other than by train					
		See <b>FREIGHT SERVICES - Service Performance</b> for the development and enhancement of consist or bulk handling services performance and project outputs through analysis and identification of performance indicators.					
3.2.1		Records documenting the provision of freight services to TasRail customers and stakeholders. Includes:	Temporary	Destroy 7 years after action completed.			
		customer enquiries					
		minutes of customer meetings					

No	Function/Activity	Description	Status	Disposal Action
FREIGHT S	SERVICES - Inspections			
		agendas of customer meetings		
		customer performance indicators		
		handling of customer complaints		
3.3	Inspections	The process of official examinations of freight to ensure compliance with agreed standards and objectives relating to the Freight Services function.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for records documenting the inspection of freight containers involved in an incident.		
		See <b>POLICY &amp; CONTROLLED DOCUMENTATION</b> for policies, procedures, standards and technical specifications.		
		See <b>FREIGHT SERVICES - Train Preparation</b> for inspections of trains.		
3.3.1		Records documenting inspections of freight containers. Records include:	Temporary	Destroy after reference ceases.
		pre-departure Checklists		
		spot audits		
3.4	Planning	The process of planning relating to the Freight Services function. Includes:		

No	Function/Activity	Description	Status	Disposal Action
FREIGHT SI	ERVICES - Planning			·
		determination of services, needs and solutions to those needs relating to the Freight Services function		
		<ul> <li>service plans and reports generated as a result of the planning process</li> </ul>		
		See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.		
3.4.1		Records documenting the development of Freight Services plans including final versions of plans.	Temporary	Destroy 7 years after action completed.
3.5	Reporting	The activity of initiating or providing reports relating to the Freight Services function.		
		See <b>BOARD &amp; GOVERNANCE - Meetings</b> for reports presented to the Board.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for reporting incidents, near misses and other notifiable occurrences.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for annual reports.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for working papers and draft reports.		

No	Function/Activity	Description	Status	Disposal Action
FREIGHT SE	ERVICES - Reporting			
3.5.1		Final versions of non-significant reports generated to support the Freight Services function.  • internal reports  • external reports  • internal statistical reports  • external statistical reports  See BOARD MANAGEMENT - Meetings or Committees for significant reports relating to the Freight Services function.	Temporary	Destroy 5 years after action completed.
3.6	Rostering	The activities associated with compiling and implementing rosters for the provision of freight services and for bulk handling.  Includes rosters for:  • train drivers  • rail operators  • train controllers  See RAIL NETWORK OPERATIONS - Scheduling for train service scheduling.  See SAFETY MANAGEMENT - Health and Wellbeing for fatigue related matters.		

No	Function/Activity	Description	Status	Disposal Action
FREIGHT S	SERVICES - Rostering			
3.6.1		Records documenting the compilation and implementation of rosters for freight services.	Temporary	Destroy 3 years after action completed.
3.7	Security	The activities associated with measures taken to protect freight from intentional damage or from unauthorised access.		
		See <b>SAFETY MANAGEMENT- Incidents</b> for damage to freight.		
		See <b>FREEIGHT SERVICES - Terminal Operations</b> for the management and operation of TasRail's freight terminals.		
3.7.1		Records documenting security measures undertaken to protect freight.	Temporary	Destroy 5 years after action completed.
3.8	Service Delivery	The activities associated with the transportation of freight including deliveries and collection of freight by means other than by train.		
		See FREIGHT SERVICES - Customer & Stakeholder Management for individual customer management.		
3.8.1		Records documenting the transportation of freight, including deliveries and collection of freight by means other than by train. Records include:	Temporary	Destroy 3 years after action completed.
		train service proposals		
		delivery records		

No	Function/Activity	Description	Status	Disposal Action			
FREIGHT SE	FREIGHT SERVICES - Service Performance						
3.9	Service Performance	The activities associated with analysing and evaluating service performance to enhance the Freight Services function.					
		See FREIGHT SERVICES - Customer & Stakeholder Management for customer enquiries, liaison, meetings and reactions to TasRail's services.					
3.9.1		Records documenting the service performance process relating to Freight Services. Includes:	Temporary	Destroy 3 years after action completed.			
		performance indicators					
3.10	Storage	The activities associated with the arrangements for the storage of commodities, including dangerous goods, such as lead.					
		See <b>FREIGHT SERVICES -Train Preparation</b> for loading and unloading freight.					
		See <b>FREIGHT SERVICES - Terminal Operations</b> for the management and operation of TasRail's freight terminals.					
3.10.1		Records documenting the storage of freight including the storage of dangerous goods. Records include:	Temporary	Destroy 7 years after action completed.			
		dangerous goods consignment notes					
		supporting documentation					
		Material Safety Data Sheets					

No	Function/Activity	Description	Status	Disposal Action		
FREIGHT SE	REIGHT SERVICES - Terminal Operations					
3.11	Terminal Operations	The activities associated with the management and operation of TasRail's freight terminals including Brighton, Burnie and Bell Bay. Includes:  • intermodal freight  • unloading freight  • bulk loading  • ship loading  • container facilities  • distribution centres  • non-rail transport  See FREIGHT SERVICES - Security for measures taken to protect freight from intentional damage or from unauthorised access.  See FREIGHT SERVICES - Storage for the storage of commodities.  See RAIL INFRASTRUCTURE MANAGEMENT for managing rail infrastructure owned, rented, or leased by TasRail.				
3.11.1		Records documenting the operation of terminals. Records include:	Temporary	Destroy 5 years after action completed.		

No	Function/Activity	Description	Status	Disposal Action
FREIGHT SE	ERVICES - Train Operations	5		
		site audits		
		interface agreements		
		delivery notices (non-rail transport)		
3.12	Train Operations	The activities associated with the operation of a train travelling from one location to another. Includes:		
		minimising noise pollution		
		See <b>FREIGHT SERVICES - Train Preparation</b> for preparing and making up trains.		
3.12.1		Records required in the operation of a train travelling from one location to another location. Includes:	Temporary	Destroy after administrative use
		cargo manifests		ceases.
		horn blowing procedure and reports		
3.13	Train Preparation	The activities associated with preparing and making up trains. Includes:		
		train plans		
		<ul> <li>consist including the shunting of wagon and locomotives</li> </ul>		
		loading including		
		train inspection		

No	Function/Activity	Description	Status	Disposal Action			
FREIGHT SE	FREIGHT SERVICES - Train Preparation						
		See ROLLINGSTOCK MANAGEMENT - Maintenance for maintenance and servicing of trains.					
		See <b>ROLLINGSTOCK MANAGEMENT - Provisioning</b> for providing rollingstock with fuel, oil and water, etc.					
		See <b>FREIGHT SERVICES - Inspections</b> for the official examinations of freight to ensure compliance with agreed standards and objectives.					
		See <b>FREIGHT SERVICES - Storage</b> for arrangements for the storage of commodities, including dangerous goods.					
		See <b>FREIGHT SERVICES - Train Operations</b> for the operation of a train travelling from one location to another.					
3.13.1		Records documenting the preparation and making up of trains. Records include:	Temporary	Destroy 3 years after action completed.			
		train plans					
		cargo manifests					
		pre-departure check lists					
4	INSURANCE	The function of insuring TasRail against loss arising from occurrences such as incidents, accidents, fire					

No	Function/Activity	Description	Status	Disposal Action
NSURANCE				
		and injury to employees, Board members and the public. Includes:		
		liaison with insurers, policy statements, and management of claims, and insurance investigations		
		compensation to members of the public injured in an incident that was the responsibility of TasRail		
		compensation for damage to property where such damage is claimed as TasRail's responsibility		
		rehabilitation of injured workers		
		advice from and to TasRail relating to Insurance		
		See <b>SAFETY MANAGEMENT- Incidents</b> for managing and reporting incidents and emergency situations causing death, injury or damage to persons or property, disruption to the rail network or near misses.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for workers compensation for TasRail employees.		
		See RISK MANAGEMENT for managing risk.		

No	Function/Activity	Description	Status	Disposal Action
INSURANCI	E - Advice			
4.1	Advice	The activities associated with offering and receiving advice on Insurance issues relating to TasRail.		
		See <b>INSURANCE - Claims</b> for advice relating to particular claims.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		
4.1.1		Records documenting the receipt and provision of general advice to TasRail managers and employees relating to insurance including determinations of amounts of cover.	Temporary	Destroy 7 years after action completed.
4.2	Claims	The process of administering and managing claims and payments demanded in accordance with an insurance policy including:		
		<ul> <li>compensation to members of the public injured in an incident that was the responsibility of TasRail</li> </ul>		

No	Function/Activity	Description	Status	Disposal Action
INSURANCE -	· Claims			
		compensation for damage to property where such damage is TasRail's responsibility		
		Includes compensation for:		
		• injury		
		• death		
		denial of rights of a person		
		damage to or destruction of or loss of use of property		
		breach of a contractual obligation		
		Includes:		
		recompense sought for stolen or lost property		
		claims for reinstatement to the rail corridor		
		claims for level crossing compensation		
		A claim can be in various forms, such as:		
		<ul> <li>verbal/writing and be for monetary compensation</li> </ul>		
		restorations of a right or an apology		

No	Function/Activity	Description	Status	Disposal Action			
INSURANCE -	NSURANCE - Claims						
		See DA 2157 Disposal Schedule for Common Administrative Functions for claims for workers compensation.					
		See <b>SAFETY MANAGEMENT - Incidents</b> for investigations of incidents.					
		See <b>INSURANCE - Advice</b> for offering and receiving advice on Insurance issues.					
		See <b>INSURANCE - Policies</b> for insurance policies including quotations and renewals.					
4.2.1		Records documenting claims and payments for compensation relating to:	Temporary	Destroy 7 years after date of issue.			
		• injury					
		• death					
		denial of rights of a person					
		<ul> <li>damage to or destruction of or loss of use of property</li> </ul>					
		breach of a contractual obligation					
		recompense sought for stolen or lost property					
		reinstatement to the rail corridor					
		level crossing compensation					

No	Function/Activity	Description	Status	Disposal Action
INSURANC	E - Compliance			
4.3	Compliance	The activities associated with complying with standards or requirements to which TasRail is subject relating to Insurance. Includes compliance with:  • legislation		
		<ul> <li>national standards</li> </ul>		
		international standards		
		See <b>POLICY &amp; CONTROLLED DOCUMENTATION</b> for developing, approving and implementing TasRail's controlled documentation including policies, procedures, standards and technical specifications for all TasRail operations.		
4.3.1		Records documenting compliance with standards or statutory requirements relating to insurance and compensation. Records include:  • certificates of currency	Temporary	Destroy 7 years after action completed.
4.4	Policies	The activities associated with all aspects of insurance policies including quotations and renewals. Includes:		
		<ul> <li>all types of insurance required by TasRail including workers compensation</li> </ul>		
		indemnity coverage for Board members		

No	Function/Activity	Description	Status	Disposal Action
INSURANCE	- Policies			
		insurance of TasRail's assets		
		See <b>INSURANCE - Claims</b> for administering and managing claims demanded in accordance with an insurance policy.		
4.4.1		TasRail copies of insurance policy documents and endorsements including:  • new conditions imposed upon renewal  • associated correspondence	Temporary	Destroy 7 years after expiry or termination of contract.
4.5	Reviewing	The activities involved in the re-evaluation or re- examination of products, processes, procedures, standards, systems and projects relating to Insurance. Includes:		
		<ul> <li>recommendations resulting from these activities</li> </ul>		
		advice resulting from these activities		
4.5.1		Records documenting reviews of insurance and compensation programs and operations including final reports.	Temporary	Destroy 5 years after action completed.
5	POLICY & CONTROLLED DOCUMENTATION	The function of developing, approving and implementing TasRail's controlled documentation including policies, procedures, standards and technical specifications for all TasRail operations.		

No	Function/Activity	Description	Status	Disposal Action
POLICY & 0	CONTROLLED DOCUMENTA	TION - Controlled Documents		
		Controlled documentation refers to a class of documents where formal approval is required to edit the documents and wide communication and change control process are in place whenever a change occurs.		
5.1	Controlled Documents	The activities associated with developing and implementing controlled documents that provide instructions for operating in accordance with TasRail policies. Includes:  • procedures  • technical specifications  • standards  • work instructions  • operating procedures  • manuals  See COMPLIANCE under the relevant function for documenting compliance with technical specifications or standards.		
5.1.1		Records documenting the development and implementation of controlled documents. Includes:  • the final versions of controlled documents	Temporary	Destroy 7 years after superseded or 7 years after expiry.

No	Function/Activity	Description	Status	Disposal Action
POLICY & C	CONTROLLED DOCUMENTA	TION - Policy		
		notification of changes to, or the implementation of new controlled documents		
5.2	Policy	The activities associated with developing and establishing TasRail's policy. Includes the formulation, research, drafting, reviewing, amending, and adoption of any organisational policy.		
5.2.1		Final versions of approved TasRail policies.	Permanent	Retain as State Archives
5.2.2		Records documenting the development of policy including draft versions of policy.	Temporary	Destroy 7 years after approval of final policy.
6	PROCUREMENT & CONTRACTING	The function of managing contracts and agreements and acquiring and/or providing goods, services and property required by TasRail. Includes:  • facilitating tendering including offers, quotations and proposals submitted by external suppliers  • formulating, issuing, receiving, evaluating, awarding and administering tenders  • the establishment, maintenance, review and negotiation of agreements and contracts  • non-financial agreements and supplier (goods and services) management		

No	Function/Activity	Description	Status	Disposal Action
PROCURE	MENT & CONTRACTING - A	dvice		
		<ul> <li>issuing and receipt of advice relating to managing contracts and agreements and acquiring and/or providing goods, services and property</li> </ul>		
6.1	Advice	The activities associated with offering and receiving advice on Procurement & Contracting issues relating to TasRail.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services to the community, non-government parties, professional bodies, interest groups etc.		
		See DA 2157 Disposal Schedule for Common Administrative Functions where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for legal advice furnished to TasRail by external and internal sources.		
6.1.1		Records documenting the receipt and provision of advice relating to the Procurement & Contracting function.	Temporary	Destroy 7 years after action completed.
6.2	Agreements & Contracts	The processes associated with the establishment, maintenance, review and negotiation of agreements and contracts between two or more parties including formal instrument of agreement. Includes:		

No	Function/Activity	Description	Status	Disposal Action
PROCUREME	NT & CONTRACTING - A	greements & Contracts		
		<ul> <li>agreements with external organisations to provide services or supply goods to TasRail</li> <li>agreements for the provision of services by TasRail to customers</li> <li>contract registers</li> <li>See RAILWAY LAND MANAGEMENT - Licences &amp; Lease Agreements for agreements and leases relating to railway land.</li> <li>See DA 2157 Disposal Schedule for Common Administrative Functions for establishing and implementing an enterprise agreement.</li> </ul>		
		See FREIGHT SERVICES - Customer & Stakeholder Management for the provision of freight services to TasRail customers and stakeholders.		
6.2.1		Contracts register.	Temporary	Destroy 7 years after last entry.
6.2.2		Records documenting the establishment, maintenance and review of agreements and contracts. Includes:  • final versions of agreements and signed contracts	Temporary	Destroy 7 years after expiry or termination of agreement.
		supporting documentation		

No	Function/Activity	Description	Status	Disposal Action
PROCUREM	IENT & CONTRACTING - Pl	anning		
6.3	Planning	<ul> <li>The process of formulating ways in which objectives can be achieved relating to the Procurement &amp; Contracting function. Includes</li> <li>the determination of services required to meet stated or implied needs, and the solutions to those needs</li> <li>feasibility studies, market engagement research and plans, spend analysis and reports generated as a result of the planning process</li> <li>See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.</li> </ul>		
6.3.1		Final versions of Procurement & Contracting plans and records documenting the development of plans. Records include:  • final plans  • draft plans  • correspondence	Temporary	Destroy 5 years after action completed.
6.4	Procurement	The process of gaining ownership or use of goods, services and property maintenance and other items required by TasRail in the conduct of business through purchase or requisition including purchasing under contract. Includes:		

No	Function/Activity	Description	Status	Disposal Action
PROCUREME	NT & CONTRACTING - Pro	curement		
		maintenance of market testing records		
		sole source supplier approvals		
		inventory purchasing		
		goods receipting records		
		conduct of supplier research and quoting		
		See <b>PROCUREMENT &amp; CONTRACTING - Tendering</b> for receiving and assessing tenders.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for asset registers used to record asset details.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the disposal of assets, facilities, fleet vehicles or plant and equipment no longer required by TasRail.		
6.4.1		Records documenting the procurement of assets including:	Temporary	Destroy 7 years after action completed.
		rail assets		
		• facilities		
		fleet vehicles		
		plant & equipment		

No	Function/Activity	Description	Status	Disposal Action

		proceeds to construction, including design modifications and alterations for existing rail infrastructure.		
		Does not include:		
		large scale infrastructure that substantially enhances the scale and service levels of the rail system		
		all underground tunnels, whether in use or not		
		infrastructure that makes a significant impact on the built or natural environment as landmarks or structures that attract substantial public interest or controversy		
		infrastructure that has significant local, regional or State wide impact		
		infrastructure that has heritage significance, including those registered on the Tasmanian Heritage Register or the National Trust of Australia		
		infrastructure that is innovative, unique or receives major design awards		
		Records include:		
		• proposals		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRAS	STRUCTURE MANAGEMENT	- Design & Construction		
		preliminary investigations		
		• estimates		
		engineering reports		
		• specifications		
		calculations		
		initial designs		
		design modifications		
		technical information		
		geotechnical advice		
		stakeholder consents and council approvals		
		<ul> <li>environmental documentation (such as environmental plans, environmental monitoring)</li> </ul>		
		'as constructed' drawings		
		concept design drawings		
		master copies of photographs		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	STRUCTURE MANAGEMENT	- Design & Construction		
7.4.3		Records documenting the design, plans and reports of rail infrastructure that do not proceed to construction or upgrade. Includes:  • preliminary reports  • feasibility reports	Temporary	Destroy 20 years after action completed.
7.4.4		Records documenting the design and construction of signage.	Temporary	Destroy 50 years after action completed.
7.5	Disposal	The process of disposing of rail infrastructure no longer required by TasRail, by:  • sale  • transfer  • termination of lease  • auction  • demolition  • decommissioning  See DA 2157 Disposal Schedule for Common Administrative Functions for recording the disposal of TasRail assets in the asset register.		
7.5.1		Records documenting the disposal of rail infrastructure. Includes:	Temporary	Destroy 7 years after disposal of asset.

No	Function/Activity	Description	Status	Disposal Action
RAIL INFR	ASTRUCTURE MANAGEMEN	NT - Heritage Conservation		
		assessments and inspections		
		valuation certificates		
		details of preparation ('making good')     undertaken before disposal		
7.6	Heritage Conservation	The activities involved in the preservation, protection, remediation, restoration, and enhancement of rail infrastructure identified as having heritage significance.		
		Includes: conservation activities undertaken on a specific structure or component, such as:		
		• bridges		
		• stations		
		• tunnels		
		track section		
		See ENVIRONMENTAL MANAGEMENT - Conservation for remediation after contamination by hazardous waste and for the conservation of railway reserves and other railway land.		
		See RAIL INFRASTRUCTURE MANAGEMENT - Maintenance for the upkeep and repair of non-heritage rail infrastructure		

No	Function/Activity	Description	Status	Disposal Action			
RAIL INFRAS	AIL INFRASTRUCTURE MANAGEMENT - Heritage Conservation						
7.6.1		Records documenting the conservation of rail infrastructure identified as having heritage significance.	Permanent	Retain as State Archives			
7.7	Inspections	The process of undertaking officially recognised inspections of rail infrastructure to ensure compliance with agreed standards and objectives. Includes:  • inspections undertaken as part of bridgework  • defect records  • reports					
7.7.1		Records documenting the physical inspection of rail infrastructure including bridges and culverts for defects, problems, etc. Includes the bridge assist system. Records may include:  • checklists  • inspection notes  • consultation documents  • draft reports  • final reports	Temporary	Destroy 10 years after action completed.			

No	Function/Activity	Description	Status	Disposal Action
RAIL INFR	ASTRUCTURE MANAGEMEN	T - Installation & Commissioning		
		defect records		
		defect reports		
7.8	Installation & Commissioning	The activities involved in placing rail infrastructure and equipment in position and connecting and adjusting it for use including the installation of points, signals, signage and culverts.		
7.8.1		Records documenting the installation and commissioning of rail infrastructure.  Includes the installation into rail infrastructure of:	Temporary	Destroy 7 years after disposal of asset.
		<ul><li>electronic points</li><li>signals</li></ul>		
		• culverts		
		<ul><li>signage</li><li>equipment</li></ul>		
		• components		
		Records may include:		
		• schedules		
		<ul> <li>copies of notifications issued</li> </ul>		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFR	ASTRUCTURE MANAGEMEN	T - Inventory		
		<ul> <li>notifications of results of safety and compliance tests</li> </ul>		
7.9	Inventory	The activities associated with listing and preparing lists of rail infrastructure items and assets in the possession of TasRail. Includes  • stocktake of rail infrastructure  • annual listings of rail infrastructure  See <i>DA 2157</i> for recording TasRail assets in the ledger.		
7.9.1		Annual or periodic inventories of rail infrastructure assets.	Temporary	Destroy 2 years after action completed.
7.10	Maintenance	The activities associated with the upkeep, repair, servicing, fit-out, corrective modification and refurbishment of TasRail's rail infrastructure.  See RAIL INFRASTRUCTURE MANAGEMENT - Heritage Conservation for the conservation of rail infrastructure identified as having heritage significance.  See RAIL INFRASTRUCTURE MANAGEMENT - Design & Construction for design modifications.  See ROLLINGSTOCK MANAGEMENT - Maintenance for rollingstock fit-outs.		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	ASTRUCTURE MANAGEMEN	IT - Maintenance		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the maintenance of bulk handling facilities.		
7.10.1		Records documenting maintenance of rail infrastructure and repairs of rail infrastructure.	Temporary	Destroy 10 years after action completed.
		Includes:  • work orders		
7.11	Meetings	The activity of holding meetings relating to Rail Infrastructure Management, within TasRail and with external organisations.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for TasRail's Executive Committees and meetings.		
7.11.1		Final versions of meeting documentation relating to Rail Infrastructure Management. Records include:  • meeting notes	Temporary	Destroy 3 years after action completed.
		<ul><li>invitations</li><li>meeting schedules</li></ul>		
7.12	Performance & Reliability	The process of assessing the suitability, reliability and expected performance of rail infrastructure and associated components when in use. Includes the:		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRAS	STRUCTURE MANAGEMENT	- Performance & Reliability		
		<ul> <li>development of performance outputs through analysis and the identification of performance indicators</li> </ul>		
		appraisal process		
		track condition index		
		bridge performance management indicators		
		monitoring of level crossings		
		See RAIL INFRASTRUCTURE MANAGEMENT - Testing for evaluating and monitoring rail infrastructure before release or sign-off.		
7.12.1		Records documenting the evaluation and management of performance and reliability of rail infrastructure. Includes:	Temporary	Destroy 7 years after after date of last inspection.
		Track Condition Index		
		Bridge Performance Management indicators		
		Monitoring of level crossings		
7.13	Planning	The process of planning relating to the Rail Infrastructure function. Includes		
		<ul> <li>the determination of services required to meet stated or implied needs, and the solutions to those needs</li> </ul>		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRAS	STRUCTURE MANAGEMENT	- Planning		
		feasibility studies, market engagement research and plans, spend analysis and reports generated as a result of the planning process		
		<ul> <li>the planning of rostering of staff involved in the maintenance of rail infrastructure</li> </ul>		
		See RAIL NETWORK OPERATIONS - Scheduling for possession planning.		
		See RAIL NETWORK OPERATIONS - Capacity Management for capacity planning.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.		
7.13.1		Plans which relate to rail infrastructure management, including:	Temporary	Destroy 15 years after action completed.
		possession planning		
		annual maintenance plans		
		weed management plans		
		space usage plans		
		feasibility studies and reports		
		staff roster planning for maintenance activity		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	ASTRUCTURE MANAGEMEN	T - Reporting		
7.14	Reporting	The processes associated with initiating or providing reports relating to the Rail Infrastructure Management function.		
		See <b>BOARD &amp; GOVERNANCE - Meetings</b> for reports presented to the Board.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for reporting incidents, near misses and other notifiable occurrences.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for annual reports.		
		See DA 2158 Disposal Schedule for Short Term Value Records for working papers and draft reports.		
7.14.1		Final versions of non-significant reports relating to Rail Infrastructure including:	Temporary	Destroy 5 years after action completed.
		internal reports		
		reports to external organisations		
		<ul> <li>published reports</li> </ul>		
		See <b>BOARD MANAGEMENT - Meetings or Committees</b> for significant reports relating to Rail Infrastructure.		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	ASTRUCTURE MANAGEMEN	T - Reviewing		
7.15	Reviewing	The activities involved in reviewing rail infrastructure programs. Includes recommendations and advice resulting from these activities.		
7.15.1		Records documenting the review of rail infrastructure programs. Includes:  • final reports  • recommendations	Temporary	Destroy 5 years after action completed.
7.16	Surveying	The activities associated with conducting surveys of rail infrastructure. Includes:  • engineering surveys of rail infrastructure including ground  See RAILWAY LAND MANAGEMENT - Surveying & Mapping for surveying railway land to determine the nature, boundaries and the extent of the land.  See ROLLINGSTOCK MANAGEMENT - Inspections for inspections of rollingstock and components.		
7.16.1		Records documenting surveys of rail infrastructure assets. Includes:  • engineering surveys including ground penetrating radar  • bridge condition surveys	Temporary	Destroy 10 years after decommissioning of asset.

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	STRUCTURE MANAGEMEN	T - Testing		
7.17	Testing	The activities associated with testing, evaluating and monitoring the performance of safety critical rail infrastructure, before release or sign-off. Includes:		
		train simulations		
		signal and load testing		
		stress testing of rail and welds		
		See <b>ROLLINGSTOCK MANAGEMENT - Testing</b> for locomotives load testing.		
		See RAIL INFRASTRUCTURE - Performance & Reliability for assessing the suitability, reliability and expected performance of rail infrastructure and associated components when in use.		
7.17.1		Final test reports relating to the testing of safety critical rail infrastructure.	Permanent	Retain as State Archives
7.17.2		Records documenting the testing of safety critical rail infrastructure.	Temporary	Destroy 7 years after action completed.
7.18	Vegetation Management	The activity of managing and controlling vegetation in rail corridors, including weed management. Includes both Operational and Non-Operational Lines.		
		See <b>RAIL INFRASTRUCTURE - Planning</b> for the Weed Management Plan.		

No	Function/Activity	Description	Status	Disposal Action
RAIL INFRA	ASTRUCTURE MANAGEMEN	T - Vegetation Management		
		See ENVIRONMENTAL MANAGEMENT for maintaining and protecting the environment through compliance with legislation, effective planning and response, and ongoing monitoring.  See ENVIRONMENTAL MANAGEMENT - Planning for the environmental management plan.  See RAILWAY LAND MANAGEMENT - Maintenance for the maintenance of railway land.		
7.18.1		Records documenting the management and control of vegetation including weeds in both operational and non-operational rail corridors.  Includes records documenting:  • toxic substances used  • locations of toxic substance use	Temporary	Destroy 25 years after action completed.
8	RAIL NETWORK OPERATIONS	The function of scheduling and controlling all movements on the TasRail network. Includes:  • network control  • capacity management  • analysis of operational performance		

No	Function/Activity	Description	Status	Disposal Action
RAIL NETV	VORK OPERATIONS - Advic	ce		
		See DA 2157 Disposal Schedule for Common Administrative Functions for developing, testing and implementing TasRail's communications systems.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for requests to access TasRail information.		
8.1	Advice	The activities associated providing or receiving advice relating to Rail Network Operation.		
		Includes:		
		handover sheets		
		loco situation reports		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services to the community, non-government parties, professional bodies, interest groups etc.		
		See DA 2157 Disposal Schedule for Common Administrative Functions where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		

No	Function/Activity	Description	Status	Disposal Action
RAIL NETW	ORK OPERATIONS - Advic	e		
8.1.1		Records documenting advice relating to Rail Network Operations.	Temporary	Destroy 7 years after action completed.
		Includes:		
		handover sheets		
		loco situation reports		
8.2	Audit	The activities associated with all rail network operations audits.		
		See <b>SAFETY MANAGEMENT - Audit</b> for all safety related audits.		
8.2.1		External and internal audit reports relating to Rail Network Operations. Includes:	Temporary	Destroy 7 years after action completed.
		<ul> <li>recommendations</li> </ul>		
		implementation plans		
8.3	Capacity Management	The activities associated with determining, evaluating, planning and allocating capacity on the TasRail network. Includes:		
		locomotive allocation and distribution		
		capacity determinations		
		capacity modelling		

No	Function/Activity	Description	Status	Disposal Action
RAIL NETWO	RK OPERATIONS - Capa	city Management		
		See <b>RAIL NETWORK OPERATIONS - Planning</b> for planning relating to the Rail Network Operations function.		
8.3.1		Records documenting the evaluation and planning of the capacity of movement on the rail network including changes made to the capacity of the network. Records may include:  • locomotive allocation and distribution  • capacity analysis documentation  • capacity determinations	Temporary	Destroy 7 years after action completed.
8.4	Compliance	The activities associated with complying with standards, technical specifications or requirements to which TasRail is subject relating to Rail Network Operations. Includes:  • compliance with legislation (eg. Rail Infrastructure Act 2007)  • compliance with national and international standards  • compliance with technical specifications		
		See POLICY & CONTROLLED DOCUMENTATION		

for developing, approving and implementing TasRail's controlled documentation including policies,

No	Function/Activity	Description	Status	Disposal Action
RAIL NETW	VORK OPERATIONS - Comp	pliance		
		procedures, standards and technical specifications for all TasRail operations.		
8.4.1		Records documenting TasRail's compliance with mandatory or optional accountability requirements relating to Rail Network Operations.	Temporary	Destroy 7 years after action completed.
8.5	Meetings	The activities associated with holding meetings relating to the Rail Network Operations function. Includes meetings held with external organisations.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for TasRail's Executive Committees and meetings.		
8.5.1		Final versions of meeting documentation relating to Rail Network Operations function. Records include:	Temporary	Destroy 5 years after action completed.
		meeting notes		
		• invitations		
		meeting schedules		
8.6	Network Control	The activities associated with controlling the movement of all trains and rollingstock and on-track vehicles on the TasRail network and communicating with other train controllers and train control centres. Includes:		

• the issuing of train control directions

No	Function/Activity	Description	Status	Disposal Action		
RAIL NETWO	AIL NETWORK OPERATIONS - Network Control					
		<ul> <li>the issuing of warrants for access to the track, such as infrastructure workers</li> <li>voice communications recorded from the Train Control centre</li> <li>records contained within the Advanced Network Control System</li> <li>See SAFETY MANAGEMENT - Incidents for network control records required for incident investigations.</li> </ul>				
8.6.1		Records documenting the movement of trains, rollingstock and on-track vehicles. Includes:  • train control graphs  • train control directions  • yard control records  • paper and electronic warrants  • train control voice communications  • Advanced Network Control System records	Temporary	Destroy 7 years after action completed.		
8.7	Planning	The process planning relating to the Rail Network Operations function. Includes:  • service plans				

No	Function/Activity	Description	Status	Disposal Action
RAIL NETWO	ORK OPERATIONS - Plann	ning		
		feasibility studies		
		<ul> <li>reports generated as a result of the planning process</li> </ul>		
		See RAIL NETWORK OPERATIONS - Capacity Management for capacity planning.		
		See <b>RAIL NETWORK OPERATIONS - Scheduling</b> for the master train plan, daily plans, coal plans and possession planning.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.		
8.7.1		Records documenting the development of Rail Network Operations plans including final versions of plans.	Temporary	Destroy 7 years after action completed.
8.8	Reporting	The processes associated with initiating or providing reports relating to the Rail Network Operations function.		
		See <b>BOARD &amp; GOVERNANCE</b> for reports presented to the Board.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for reporting incidents, near misses and other notifiable occurrences.		

No	Function/Activity	Description	Status	Disposal Action
RAIL NETW	ORK OPERATIONS - Repo	rting		
		See DA 2157 Disposal Schedule for Common Administrative Functions for annual reports.		
		See DA 2158 Disposal Schedule for Short Term Value Records for working papers and draft reports.		
8.8.1		Final versions of non-significant reports relating to Rail Network Operations. Includes:	Temporary	Destroy 5 years after action completed.
		internal reports		
		reports to external organisations		
		published reports		
		internal statistical and survey reports		
		See <b>BOARD MANAGEMENT - Meetings or Committees</b> for significant reports relating to Rail Network Operations.		
8.9	Research	The activities involved in undertaking research to support the development of projects, standards, guidelines, and the business activities of Rail Network Operations. Includes:		
		<ul> <li>following up enquiries relating to organisational programs</li> </ul>		
		<ul> <li>projects</li> </ul>		
		working papers		

No	Function/Activity	Description	Status	Disposal Action
RAIL NETW	ORK OPERATIONS - Resea	arch		
		literature searches		
8.9.1		Records documenting original research relating to Rail Network Operations.	Permanent	Retain as State Archives
8.9.2		Records documenting research which is not of an original nature and supports routine matters relating to Rail Network Operations.	Temporary	Destroy 5 years after action completed.
8.10	Scheduling	The activities associated with developing the collective train services contracted to operate on TasRail's infrastructure network together with possessions and train paths allocated to maintenance and construction. Includes:  • possession planning  • rescheduling of train services affected by possession  • weekly scheduling for coal  See FREIGHT SERVICES - Rostering for compiling		
		rosters for train drivers, rail operators and train controllers and rosters for bulk handling.  See RAIL NETWORK OPERATIONS - Planning for planning relating to the Rail Network Operations		
		function.		
8.10.1		Records documenting the collective train services operation on the TasRail network. Includes:	Temporary	Destroy 7 years after action completed.

No	Function/Activity	Description	Status	Disposal Action
RAILWAY LA	AND MANAGEMENT			
		the master train plan		
		possession plans		
		possession protocols		
		daily train plans		
		coal train plans		
		train running reports		
9	RAILWAY LAND MANAGEMENT	The function of managing railway land, including railway corridors and railway reserves including radio station sites leased by TasRail Includes:		
		acquisition, leasing, maintenance, protection, and disposal of railway land		
		arranging legal access to railway land		
		NOTE: See DA 2157 <b>PROPERTY MANAGEMENT</b> for the disposal of records under activities that are not identified in this schedule.		
		See <b>RAIL INFRASTRUCTURE</b> for the management of all railway infrastructure, including TasRail premises (such as depots, station and workshops) and maintenance.		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY I	LAND MANAGEMENT - Acce	ess		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the payment of land rates.		
		See ENVIRONMENTAL MANAGEMENT - Conservation for the remediation of railway reserves and railway land.		
9.1	Access	The activities involved in negotiating for TasRail to obtain access to private land and for third parties to obtain access to TasRail land (i.e. Telstra, NBN). Includes shared assets (such as a railway crossings). Includes:		
		<ul> <li>asset interface agreements and interface coordination plans relating to the highway network, local council roads and private property</li> </ul>		
		See RAILWAY LAND MANAGEMENT - Licences & Lease Agreements for the Licences associated with providing access to railway land.		
		See <b>SAFETY MANAGEMENT - Training</b> for safety training including the online Track Safety Awareness course		
		See RAILWAY LAND MANAGEMENT - Maintenance for the maintenance of railway land.		
9.1.1		Records documenting negotiating for TasRail to obtain access to private land and for third parties to	Temporary	Destroy 7 years after action completed.

No	Function/Activity	Description	Status	Disposal Action
RAILWAY LA	AND MANAGEMENT - Acce	ess		
		obtain access to TasRail land (i.e. Telstra, NBN) including shared assets (such as a railway crossings). Includes details of:		
		asset location		
		who is responsible for asset		
		safety considerations relating to access		
		communication protocols		
		Records include:		
		asset interface agreements		
		interface coordination plans		
9.1.2		Register of interface agreements.	Temporary	Destroy 7 years after last entry.
9.2	Advice	The activities associated with advice provided by or to TasRail relating to the Railway Land Management function. Includes:		
		<ul> <li>property searches and enquiries</li> </ul>		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services to the community, non-government parties, professional bodies, interest groups etc.		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY L	AND MANAGEMENT - Advi	ce		
		See DA 2157 Disposal Schedule for Common Administrative Functions where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments. (e.g. reporting on land acquisition and disposal).		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		
		See <b>RAILWAY LAND MANAGEMENT - Reviewing</b> for reviewing operations and programs relating to Railway Land Management.		
		See RAILWAY LAND MANAGEMENT - Land Use Planning for advice relating to Tasmanian planning schemes and notifications of development applications on neighbouring properties.		
9.2.1		Records documenting the receipt and provision of advice relating to Railway Land Management.	Temporary	Destroy 7 years after action completed.
9.3	Audit	The activities associated with external and internal audits relating to Railway Land Management.		
		See <b>SAFETY MANAGEMENT - Audit</b> for all safety related audits.		
9.3.1		Records documenting external and internal audits relating to Railway Land Management. Includes:	Temporary	Destroy 7 years after action completed.
		• reports		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY L	AND MANAGEMENT - Land	Use Planning		
		<ul><li>recommendations</li><li>implementation plans</li></ul>		
9.4	Land Use Planning	The activities associated with TasRail providing comment/advice relating to Tasmanian planning schemes and responding to notifications of development applications on railway land neighbouring properties.  See RAILWAY LAND MANAGEMENT - Advice for non-land use planning advice provided by or to TasRail relating to the Railway Land Management function.		
9.4.1		Records documenting:	Temporary	Destroy 7 years after action completed.
9.5	Licences & Lease Agreements	The activities associated with managing licences and lease agreements relating to railway land. Includes:  • licences and formal permissions required by TasRail		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY I	LAND MANAGEMENT - Lice	nces & Lease Agreements		
		the establishment, maintenance, review and negotiation of agreements and leases		
		<ul> <li>pipeline requests related to licences and radio station site leases</li> </ul>		
		See ENVIRONMENTAL MANAGEMENT - Licences & Permits for environmental permits such trade waste permits or sewer discharge permits.		
		See <b>RAILWAY LAND MANAGEMENT - Access</b> for activities associated with granting access, including asset interface agreements and interface coordination plans.		
		See <b>PROCUREMENT &amp; CONTRACTING - Agreements &amp; Contracts</b> for the establishment, maintenance, review and negotiation of agreements and contracts.		
9.5.1		Records documenting railway land licences, permits, agreements, leases and sub-leases including heads of agreement and lease agreements.	Temporary	Destroy 50 years after expiry or termination of licence, permit, agreement or leases.
9.6	Maintenance	The activities associated with the maintenance of railway land. Includes:		
		the identification of maintenance requirements		
		maintenance undertaken by TasRail		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY L	AND MANAGEMENT - Mair	ntenance		
		negotiations with either Councils or Government to conduct maintenance where required		
		See RAIL INFRASTRUCTURE MANAGEMENT - Vegetation Management for the control of vegetation in rail corridors.		
		See <b>RAILWAY LAND MANAGEMENT - Access</b> for activities associated with granting access, including asset interface agreements and interface coordination plans.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the maintenance of facilities occupied by TasRail staff and for the maintenance of bulk handling facilities.		
9.6.1		Records documenting the identification of, and negotiations regarding maintenance requirements of railway land including level crossings and pedestrian crossings and maintenance undertaken by TasRail.	Temporary	Destroy 7 years after action completed.
9.7	Rates	The process of negotiating with local councils regarding rates for railway land. Includes rate objections made by TasRail.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for financial records relating to the payment of rates.		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY L	AND MANAGEMENT - Rates			
9.7.1		Rate notices and supplementary notices received from councils and rate objections made by TasRail.	Temporary	Destroy 7 years after action completed.
9.8	Reviewing	The activities involved in reviewing operations and programs relating to Railway Land Management.		
		See <b>RAILWAY LAND MANAGEMENT - Advice</b> for advice resulting from reviews.		
9.8.1		Records documenting the review of Railway Land Management operations and programs. Includes:	Temporary	Destroy 5 years after action completed.
		final versions of reports		
		recommendations		
9.9	Surveying & Mapping	The activity of surveying railway land to determine the nature, boundaries and the extent of railway land. Includes:		
		the preparation of maps		
		spatial data		
		See PROCUREMENT & CONTRACTING - Agreements & Contracts for service level agreements for mapping.		
		See <b>RAIL INFRASTRUCTURE - Surveying</b> for surveying the location of rail infrastructure.		

No	Function/Activity	Description	Status	Disposal Action
RAILWAY LA	AND MANAGEMENT - Surve	ying & Mapping		
9.9.1		Records documenting the survey and mapping of railway land including landslip surveys.	Permanent	Retain as State Archives
10	RISK MANAGEMENT	<ul> <li>The function of managing risk. Includes:         <ul> <li>the identification and evaluation of risks</li> </ul> </li> <li>the development, implementation and monitoring of appropriate practices to manage those risks to a tolerable level</li> <li>risk assessments, controls and risk treatment actions</li> <li>See INSURANCE for insuring TasRail against loss.</li> <li>See SAFETY MANAGEMENT for developing and managing safety management systems.</li> </ul>		
10.1	Actions	The process involved in the implementation of risk treatment actions which manage risks to a tolerable level. Includes:  • actions raised in response to incidents  • action raised at Safety Health and Environment (SHE) committee meetings or other management meetings  • all actions contained on any registers at TasRail (e.g. Risk Wizard)		

No	Function/Activity	Description	Status	Disposal Action
RISK MANA	GEMENT - Actions			
		See <b>RISK MANAGEMENT - Assessments</b> for actions recorded in risk registers.		
		See <b>RISK MANAGEMENT - Controls</b> for creating, maintaining and evaluating controls for managing identified risks.		
		See <b>SAFETY MANAGEMENT - Reporting</b> for the reporting of progress against actions, or analysis of trends etc.		
10.1.1		Records documenting risk treatment actions.	Temporary	Destroy 7 years after action completed.
10.2	Assessments	The process involved in assessing risks and the consequences of those risks. Includes assessments contained in any risk registers at TasRail such as:  • strategic risk registers  • operational, risk registers  • environmental risk registers  • project risk registers  See RISK MANAGEMENT - Actions for the management of actions raised from a risk assessment.		

No	Function/Activity	Description	Status	Disposal Action
RISK MAN	AGEMENT - Assessments			
		See <b>RISK MANAGEMENT - Controls</b> for creating, maintaining and evaluating controls for managing identified risks.		
10.2.1		Records documenting risk assessments which identify and evaluate risks. Includes:  • derailment risk assessments  • terminal upgrades risk assessments  • wagons risk assessments  • Hi Rack risk assessments  • risk assessments conducted before disposing of railway land  • assessments contained in any risk registers at TasRail (e.g. Risk Wizard)	Temporary	Destroy 7 years after action completed.
10.3	Controls	The activities associated with creating, maintaining and evaluating controls for managing identified environmental risks.  See RISK MANAGEMENT - Assessments for risk registers.  See RISK MANAGEMENT - Actions for actions raised to create new or amend existing controls.		

No	Function/Activity	Description	Status	Disposal Action
RISK MANA	GEMENT - Controls			
		See ENVIRONMENTAL MANAGEMENT - Contamination for preventative measures and the management of environmental contamination where hazardous materials are involved.		
10.3.1		Records documenting the creation and maintenance of controls for managing identified environmental risks. Includes:  • clean-up registers	Permanent	Retain as State Archives
		contamination registers		
10.3.2		Records documenting the creation and maintenance of controls for managing identified non-environmental risks.	Temporary	Destroy 7 years after action completed.
11	ROLLINGSTOCK MANAGEMENT	The function of managing railway vehicles owned, rented, or leased by TasRail. Includes designing, disposal, manufacture, modifying, planning, presentation, overhauling, provisioning, servicing, repairing and conservation of railway vehicles.  Railway vehicles include:		
		locomotives		
		rollingstock		
		• wagons		
		track vehicles		

No	Function/Activity	Description	Status	Disposal Action
ROLLINGSTO	OCK MANAGEMENT - Advi	ice		
		See <b>PROCUREMENT &amp; CONTRACTING</b> for the procurement of rollingstock.		
		See <b>SAFETY MANAGEMENT- Incidents</b> for incidents involving rollingstock.		
		See <b>FREIGHT SERVICES</b> for activities related to TasRail's bulk handling operations.		
		See RAIL INFRASTRUCTURE for road rail vehicles.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for management of and access to communications and on-board signalling systems.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the management of TasRail's fleet (road) vehicles.		
11.1	Advice	The activities associated with the provision of advice by or to TasRail relating to the Rollingstock Management function. Includes the provision of technical advice associated with rollingstock and associated components.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for the provision of routine advice about TasRail and its services.		
		See DA 2157 Disposal Schedule for Common Administrative Functions where TasRail is responding		

No	Function/Activity	Description	Status	Disposal Action
ROLLINGS	TOCK MANAGEMENT - Adv	ice		
		to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		
11.1.1		Records documenting the receipt and provision of advice including technical advice relating to rollingstock management.	Temporary	Destroy 2 years after disposal of asset.
11.2	Cleaning	The activity of cleaning rollingstock and upkeep of livery, including paint, logos and signage and colour schemes.		
		See <b>ROLLINGSTOCK MANAGEMENT - Maintenance</b> for preventative and corrective maintenance activities on TasRail's rollingstock and associated components.		
11.2.1		Records relating to cleaning rollingstock interiors and exteriors.	Temporary	Destroy 2 years after action completed.
11.3	Design	The activity of designing rollingstock and associated components, including design modifications. Includes:		
		initial design plans		
		• specifications		
		• drawings		

No	Function/Activity	Description	Status	Disposal Action			
ROLLINGSTO	ROLLINGSTOCK MANAGEMENT - Design						
		See ROLLINGSTOCK MANAGEMENT - Maintenance for all corrective maintenance and modification works to rollingstock.					
		See RAIL INFRASTRUCTURE MANAGEMENT - Design & Construction for designing and constructing rail infrastructure.					
11.3.1		Master copies of design specifications or design modifications relating to rollingstock and associated components. Includes:	Permanent	Retain as State Archives			
		system drawings					
		component drawings					
		• reports					
		• proposals					
		<ul> <li>recommendations</li> </ul>					
		project management records					
		master copies of photographs					
11.4	Disposal	The process of disposing of rollingstock no longer required by TasRail, by sale, transfer, termination of lease, auction, demolition and decommissioning.					

No	Function/Activity	Description	Status	Disposal Action
ROLLINGSTO	OCK MANAGEMENT - Disp	osal		
		See DA 2157 Disposal Schedule for Common Administrative Functions for recording disposal of TasRail assets in the ledger.		
11.4.1		Records documenting the disposal of rollingstock and associated components. Includes:  • assessments and inspections  • valuation certificates  • details of preparation ('making good')	Temporary	Destroy 7 years after disposal of asset.
		undertaken before disposal		
11.5	Inspections	The process of official examinations of rollingstock and associated components to ensure compliance with agreed standards and objectives. Includes defect records and reports.		
		See ROLLINGSTOCK MANAGEMENT - Maintenance for all corrective maintenance and modification works to rollingstock.		
11.5.1		Records relating to inspections of rollingstock and components including:  • brake inspections	Temporary	Destroy 10 years after action completed.
		wheel inspections		
		wheel inspections		

No	Function/Activity	Description	Status	Disposal Action		
ROLLINGS	OLLINGSTOCK MANAGEMENT - Inventory					
		Records may include:				
		• checklists				
		maintenance sheets				
		inspection notes				
		defect and fault reports				
11.6	Inventory	The activities associated with listing and preparing lists of rollingstock in the possession of TasRail. Includes:				
		• stocktake				
		annual listings of rollingstock				
		See DA 2157 Disposal Schedule for Common Administrative Functions for recording TasRail assets in the ledger.				
11.6.1		Annual or periodic inventories of rollingstock assets.	Temporary	Destroy 2 years after action completed.		
11.7	Maintenance	Preventative and corrective maintenance activities associated with the upkeep, repair, servicing, fit-out, changeover, modification and preservation of TasRail's rollingstock and associated components. Includes:				

No	Function/Activity	Description	Status	Disposal Action
ROLLINGSTO	CK MANAGEMENT - Main	tenance		
		change-overs of rollingstock components as part of preventative or corrective maintenance activities     repairs to damaged rollingstock and associated components     modifications to rollingstock and associated components as part of preventative or corrective maintenance activities     manufacture of components as part of modifications  See ROLLINGSTOCK MANAGEMENT - Cleaning for cleaning rollingstock and the upkeep of livery, including paint, logos and signage and colour schemes.  See ROLLINGSTOCK MANAGEMENT - Design for design modifications.  See ROLLINGSTOCK MANAGEMENT - Inspections for periodic maintenance inspection records.  See ROLLINGSTOCK MANAGEMENT - Reporting for reporting any defects as part of scheduled servicing to comply with warranty conditions.  See FREIGHT SERVICES - Train Preparation for preparing and making up trains.		

No	Function/Activity	Description	Status	Disposal Action
ROLLINGST	OCK MANAGEMENT - Main	tenance		
11.7.1		Records documenting the maintenance of rollingstock and associated components. Includes:  • change-overs of rollingstock components as part of preventative or corrective maintenance activities  • repairs to damaged rollingstock and associated components  • modifications to rollingstock and associated components as part of preventative or corrective maintenance activities  • manufacture of components as part of modifications  Records may include:  • additions to service records of rollingstock and components	Temporary	Destroy 7 years after disposal of asset.
11.8	Meetings	The activities associated with holding meetings relating to the Rollingstock Management function including meetings held with external organisations.  See DA 2157 Disposal Schedule for Common Administrative Functions for TasRail's Executive Committees and meetings.		

No	Function/Activity	Description	Status	Disposal Action
ROLLINGST	OCK MANAGEMENT - Mee	tings		
11.8.1		Final versions of meeting documentation relating to the Rollingstock Management function including weekly toolbox meetings.  • meeting notes  • invitations  • meeting schedules	Temporary	Destroy 3 years after action completed.
11.9	Performance and Reliability	The process of assessing the suitability of rollingstock and associated components when in use and monitoring locomotive performance. Includes:  • the development of performance outputs through analysis  • the identification of performance indicators and the appraisal process  See ROLLINGSTOCK MANAGEMENT - Testing for evaluating rollingstock before release or sign-off and after servicing.		
11.9.1		Records documenting the evaluation and management of performance and reliability of rollingstock and associated components. Examples include:  • fuel consumption • loco performance	Temporary	Destroy after disposal of asset.

No	Function/Activity	Description	Status	Disposal Action		
ROLLINGS	ROLLINGSTOCK MANAGEMENT - Planning					
		meantime between failure				
		<ul> <li>availability</li> </ul>				
11.10	Planning	The process of formulating plans relating to the Rollingstock Management function.				
		Includes:				
		<ul> <li>feasibility studies and reports generated as a result of the planning process</li> </ul>				
		planning maintenance activities				
		See RAIL NETWORK OPERATIONS - Capacity Management for capacity planning.				
		See <b>RAIL NETWORK OPERATIONS - Scheduling</b> for possession planning.				
		See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.				
11.10.1		Final versions of plans and records documenting the development of Rollingstock Management plans. Includes:	Temporary	Destroy 7 years after action completed.		
		annual maintenance plans				
		maintenance activities				

No	Function/Activity	Description	Status	Disposal Action		
ROLLINGS	OLLINGSTOCK MANAGEMENT - Provisioning					
		feasibility studies and reports				
11.11	Provisioning	The activities associated with providing rollingstock with fuel, oil, water, sand and other substances and undertaking other procedures necessary for functioning.				
		See <b>FREIGHT SERVICES - Train Preparation</b> for preparing and making up trains.				
11.11.1		Records relating to the provisioning of rollingstock.	Temporary	Destroy 2 years after action completed.		
11.12	Reporting	The processes associated with initiating or providing reports relating to the Rollingstock Management function.				
		See <b>BOARD &amp; GOVERNANCE - Meetings</b> for reports presented to the Board.				
		See <b>SAFETY MANAGEMENT - Incidents</b> for reporting incidents, near misses and other notifiable occurrences.				
		See DA 2157 Disposal Schedule for Common Administrative Functions for annual reports.				
		See DA 2158 Disposal Schedule for Short Term Value Records for working papers and draft reports.				

No	Function/Activity	Description	Status	Disposal Action			
ROLLINGST	ROLLINGSTOCK MANAGEMENT - Reporting						
		See ROLLINGSTOCK MANAGEMENT - Maintenance for all corrective maintenance and modification works to rollingstock.					
11.12.1		Final versions of non-significant reports relating to Rollingstock Management. Includes:  • internal reports  • operational reports  • internal statistical reports  • reports to external organisations  See BOARD MANAGEMENT - Meetings or Committees for significant reports relating to Rollingstock Management.	Temporary	Destroy 5 years after action completed.			
11.13	Reviewing	The activities involved in undertaking reviews relating to Rollingstock.  See ROLLINGSTOCK MANAGEMENT - Advice for advice resulting from reviews.					
11.13.1		Records documenting the review of rollingstock programs, operations and services. Includes:  • final versions of reports  • recommendations	Temporary	Destroy 5 years after action completed.			

No	Function/Activity	Description	Status	Disposal Action
ROLLINGSTO	OCK MANAGEMENT - Test	ing		
11.14	Testing	The activities associated with testing, evaluating and monitoring the performance of rollingstock before release or sign-off and testing after servicing and commissioning. Includes:		
		train simulations		
		load testing		
		• commissioning		
		See ROLLINGSTOCK MANAGEMENT - Performance and Reliability for monitoring locomotive performance.		
		See RAIL INFRASTRUCTURE MANAGEMENT - Testing for testing rail infrastructure including signal and load testing.		
11.14.1		Records documenting testing, evaluating and monitoring the performance of rollingstock before release or sign-off and testing after servicing and commissioning. Includes:	Temporary	Destroy 7 years after disposal of asset.
		locomotives load testing		
		fault finding testing		
		wagon testing		
		weigh tests		

No	Function/Activity	Description	Status	Disposal Action	
SAFETY MA	SAFETY MANAGEMENT				
		ride performance tests			
		Records include:			
		final test results			
		test reports including train simulation reports			
		loading profiles			
12	SAFETY MANAGEMENT	The function of developing and managing safety management systems. Includes:  • ensuring TasRail's compliance with Rail Safety National Legislation elements and			
		<ul> <li>occupational health and safety and associated legislation</li> <li>providing advice by or to TasRail relating to safety, emergency and security matters</li> </ul>			
		<ul> <li>managing, investigating and reporting incidents and emergency situations causing death, injury or damage to persons or property, or disruption to the rail network</li> </ul>			
		developing and delivering rail safety training such as Track Safety Awareness training			
		developing plans for security and emergency response			

No	Function/Activity	Description	Status	Disposal Action
SAFETY MAI	NAGEMENT - Accreditation	n		
SAFEIT MAI	VAGEMENT - ACCTEUITATION	<ul> <li>promoting and monitoring fatigue, staff health and fitness, and drug and alcohol programs</li> <li>establishing committees to investigate and advise on safety issues</li> <li>managing simulation emergency exercises</li> <li>See DA 2157 Disposal Schedule for Common Administrative Functions for managing rehabilitation programs that treat and restore workers to preinjury status.</li> <li>See RISK MANAGEMENT for safety risk management assessments, controls and actions.</li> </ul>		
		See DA 2157 Disposal Schedule for Common Administrative Functions for discipline case files involving staff or contractors.  See ENVIRONMENTAL MANAGEMENT for		
		maintaining and protecting the environment through compliance with legislation, effective planning and response, and ongoing monitoring.  See <b>FREIGHT SERVICES</b> for managing bulk, intermodal and other freight services.		
12.1	Accreditation	The activities relating to the maintenance of TasRail as an accredited rail transport operator under the Rail Safety National Law.		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	ANAGEMENT - Accreditation	1		
12.1.1		Records documenting the maintenance of TasRail as an accredited rail transport operator under the Rail Safety National Law. Includes:	Permanent	Retain as State Archives
		notices of accreditation		
		variations to accreditation		
12.2	Advice	The activities associated the provision of advice by or to TasRail relating to safety, emergency and security matters.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the provision of routine advice about TasRail and its services.		
		See DA 2157 Disposal Schedule for Common Administrative Functions where TasRail is responding to the Tasmanian Government or other jurisdictions requests for advice and comments.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		
		See <b>SAFETY MANAGEMENT - Evaluation &amp; Reviewing</b> for recommendations and advice resulting from evaluating and reviewing the suitability of potential or existing safety, emergency and security management programs, items of equipment, systems or services.		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	ANAGEMENT - Advice			
12.2.1		Records documenting the receipt and provision of internal and external advice relating to the safety management function.	Temporary	Destroy 7 years after action completed.
12.3	Audit	The activities associated with all safety related audits to ensure compliance with agreed or legislated standards and processes. Includes:  • internal and external audits conducted by the Office of the National Rail Safety Regulator  See RAIL NETWORK OPERATIONS - Audit for rail network operations audits.  See RAILWAY LAND MANAGEMENT - Audit for audits relating to the Railway Land Mangement function.		
12.3.1		External and internal audit reports relating to Safety Management including recommendations and implementation plans. Includes:  • reports of audits conducted by the Office of the National Rail Safety Regulator	Temporary	Destroy 7 years after action completed.
12.4	Authorisation	The process of seeking and granting permission to undertake requested action. Includes:  • delegations of functions to TasRail staff in relation to safety management		

No	Function/Activity	Description	Status	Disposal Action		
SAFETY MAI	AFETY MANAGEMENT - Authorisation					
12.4.1		Records documenting notifications of, and conditions of, delegations granted to employees under Rail Safety National Laws.	Temporary	Destroy 7 years after reference use ceases.		
12.5	Committees	The activities associated with the management of safety, emergency and security-related committees. Includes:				

No	Function/Activity	Description	Status	Disposal Action			
SAFETY MA	SAFETY MANAGEMENT - Committees						
		See <b>BOARD &amp; GOVERNANCE - Committees</b> for all Board Committees.					
		See DA 2157 Disposal Schedule for Common Administrative Functions for TasRail's Executive Committees and meetings.					
12.5.1		Records of safety management committees. Includes:	Temporary	Destroy 7 years after action completed.			
		documents establishing the committee					
		documents appointing members					
		final versions of minute					
		agenda papers					
		reports presented to the committee					
		submissions presented to the committee					
		<ul> <li>records relating to the conduct and administration of committees</li> </ul>					
12.6	Compliance	The activities associated with ensuring compliance with safety standards or requirements to which TasRail is subject relating to the Safety Management function. Includes compliance with:					
		elements of the Rail Safety National Law (Tas)     Act					

No	Function/Activity	Description	Status	Disposal Action
SAFETY MAN	AGEMENT - Compliance			
		Model Workplace Health and Safety Act and associated regulations		
		ational and international standards		
		licences and permits required to undertake high risk work		
		See <b>SAFETY MANAGEMENT - Audit</b> for the process of validating compliance against records.		
		See <b>SAFETY MANAGEMENT - Inspections</b> for examinations of facilities, items and equipment.		
		See <b>ENVIRONMENTAL MANAGEMNET - Compliance</b> for compliance with environmental standards or requirements.		
		See <b>POLICY &amp; CONTROLLED DOCUMENTATION</b> for developing, approving and implementing TasRail's controlled documentation including policies, procedures, standards and technical specifications for all TasRail operations.		
12.6.1		Records documenting compliance with safe working practices and policy. Includes:	Temporary	Destroy 7 years after action completed.
		<ul> <li>the application for and holding of licences and permits required to undertake high risk work e.g. explosives, dangerous goods and poisons licences</li> </ul>		

No	Function/Activity	Description	Status	Disposal Action		
SAFETY MAN	AFETY MANAGEMENT - Emergency Management					
		Records include:  • Material Safety Data Sheets (MSDS)  • work access permits  • confined space hazard identification checklists  • safety observation forms  • pre-work briefings				
		<ul><li>logbooks</li><li>work plans</li><li>job analysis</li></ul>				
12.7	Emergency Management	The activities associated with organising, carrying out, evaluating and reporting on safety or emergency training exercises or simulations. Includes TasRail's participation in exercises conducted by external organisations.  See SAFETY MANAGEMENT - Planning for the development of the Emergency Management Plan.  See SAFETY MANAGEMENT - Incidents for records relating to the response to emergency situations.				

No	Function/Activity	Description	Status	Disposal Action
SAFETY MAI	NAGEMENT - Emergency M	anagement		
12.7.1		Records documenting the implementation and review of emergency training or simulation exercises. Includes:  • plans  • consultation documents  • liaison details  • debriefing notes  • draft and final reports	Temporary	Destroy 10 years after action completed.
12.8	Evaluation & Reviewing	The process of evaluating and reviewing the suitability of potential or existing safety, emergency and security management programs, items of equipment, systems or services. Includes recommendations and advice resulting from these activities.  See SAFETY MANAGEMENT - Implementation for ongoing monitoring.  See SAFETY MANAGEMENT - Advice for the provision of advice by or to TasRail relating to safety management function.		
12.8.1		Records documenting the evaluation or review of safety management activities, programs, systems or services. Includes:	Temporary	Destroy 7 years after action completed.

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	ANAGEMENT - Health & We	llbeing		
		evaluation and review criteria		
		<ul> <li>copies of survey/evaluation forms</li> </ul>		
		<ul> <li>results of surveys and recommendations</li> </ul>		
		drafts reports		
		final reports and recommendations		
12.9	Health & Wellbeing	The activities involved in promoting the establishment and maintenance of health and wellbeing programs for TasRail employees including health monitoring and test results relating to:		
		alcohol and drugs		
		• fatigue		
		lead levels		
		<ul> <li>noise vibration.</li> </ul>		
		See DA 2157 Disposal Schedule for Common Administrative Functions for the promotion of safety to the public.		
		See <b>SAFETY MANAGEMENT - Planning</b> for the Fatigue Risk Plan and the Health and Fitness Plan.		
12.9.1		Records documenting health and wellbeing programs including health monitoring and test results.	Temporary	Destroy 75 years after date of birth.

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	NAGEMENT - Implementa	tion		
12.10	Implementation	The activities associated with implementing safety, emergency and security management plans, policies, procedures or instructions, or services which could be internally or externally driven. Includes:		
		<ul> <li>the implementation of recommendations from advisory bodies</li> </ul>		
		<ul> <li>reports generated as a result of a need to implement</li> </ul>		
		See <b>SAFETY MANAGEMENT - Evaluation &amp; Reviewing</b> for evaluating and reviewing the suitability of potential programs, equipment, systems or services.		
12.10.1		Records documenting the implementation of plans, policies and procedures relating to the safety management function. Includes:	Temporary	Destroy 7 years after action completed.
		implementation Plans		
		<ul> <li>circulars and notifications relating to the implementation of plans, policies and procedures</li> </ul>		
12.11	Incidents	The activities associated with managing, investigating and reporting incidents. Includes:		
		<ul> <li>incidents that are reportable and or recordable under the Rail Safety National legislation</li> </ul>		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MAN	AGEMENT - Incidents			
		video surveillance placed on rollingstock and rail infrastructure to record incidents		
		See DA 2157 Disposal Schedule for Common Administrative Functions for workers compensation claims made by TasRail employees.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for formal investigations such as Royal Commissions, Parliamentary and Ombudsman's Inquiries.		
		See DA 2157 Disposal Schedule for Common Administrative Functions for legal advice furnished to TasRail by external and internal sources.		
		See <b>INSURANCE</b> for claims made by members of the public relating to accidents/incidents.		
		See <b>SAFETY MANAGEMENT - Emergency Management</b> for organising, carrying out, evaluating and reporting on safety or emergency training exercises or simulations.		
12.11.1		Records documenting investigations (including joint investigations) of significant incidents. These include:	Permanent	Retain as State Archives
		fatality, single or multiple		
		permanent disability or extensive injury		
		extensive damage to property		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MANA	AGEMENT - Incidents			
		safeworking or procedural breaches resulting in danger to the public		
		significant environmental harm		
		major disruptions to the rail network		
		Records may include:		
		master copies of photographs		
		witness statements		
		master copies of video surveillance tapes		
		background information investigation notes		
		final reports		
12.11.2		Records documenting investigations (including joint investigations) of any recordable non-significant incidents. These include:	Temporary	Destroy 25 years after action completed.
		any recordable injury		
		moderate loss or damage to property		
		<ul> <li>safeworking or procedural breaches not resulting in injury or property damage</li> </ul>		
		low environmental impact		

No	Function/Activity	Description	Status	Disposal Action		
SAFETY MANA	AFETY MANAGEMENT - Incidents					
		moderate disruption to customer service				
		and interest confined to those involved				
		Records may include:				
		master copies of photographs				
		witness statements				
		master copies of video surveillance tapes				
		background information investigation notes				
		final reports				
12.11.3		Records documenting investigations (including joint investigations) of incidents where there is no injury, low loss or no damage or impact. These include:	Temporary	Destroy 7 years after action completed.		
		near misses				
		low loss or no damage to property				
		safeworking breaches as a result of track manager or infrastructure fault				
		no environmental impact				
		<ul> <li>no disadvantage to customers but failure to meet expectations</li> </ul>				

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	NAGEMENT - Incidents			_
		no apparent external interest or threat to corporate image		
		Records may include:		
		master copies of photographs		
		witness statements		
		master copies of video surveillance tapes		
		background information investigation notes		
		final reports		
12.11.4		Master copies of video surveillance tapes used to monitor incidents and near misses that are not required in the investigation of incidents or near misses.	Temporary	Destroy after reference ceases.
12.12	Inspections	The activities associated with inspections to ensure compliance with legislation including:		
		Rail Safety National Law (Tas) Act		
		<ul> <li>Model Workplace Health and Safety Act and associated regulations</li> </ul>		
		Includes:		
		inspections of safety related engineering and operational systems		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MAI	NAGEMENT - Inspections			
		See DA 2157 Disposal Schedule for Common Administrative Functions for inspections required under the model Work Health and Safety Act.		
		See <b>SAFETY MANAGEMENT - Compliance</b> for ensuring compliance with safety standards or requirements.		
12.12.1		Records of periodic and routine inspections to ensure compliance with rail safety regulations including inspections of safety related engineering and operational systems. Records may include:	Temporary	Destroy 7 years after action completed.
		• checklists		
		inspection notes		
		completed forms		
		final inspection reports		
12.13	Meetings	The activities associated with holding meetings relating to the Safety Management function.		
		See <b>SAFETY MANAGEMENT - Committees</b> for committee meetings.		
		See <i>DA 2157 Disposal Schedule for Common Administrative Functions</i> for TasRail's Executive Committees and meetings.		

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	ANAGEMENT - Meetings			
12.13.1		Final version of meeting documentation relating to the Safety Management function. Includes:  • meeting notes  • invitations  • meeting schedules	Temporary	Destroy 5 years after action completed.
12.14	Performance Measures	The activities associated with the development and enhancement of TasRail's safety performance measures through analysis, identification of performance indicators, and evaluation including the appraisal process.  See BOARD & GOVERNANCE - Performance Management for reporting on TasRail's Board performance.  See DA 2157 Disposal Schedule for Common Administrative Functions for employee work performance including individual performance agreements.  See DA 2157 Disposal Schedule for Common Administrative Functions for TasRail's overall performance.		
12.14.1		Records documenting safety performance measures including:	Temporary	Destroy 5 years after action completed.

No	Function/Activity	Description	Status	Disposal Action
SAFETY MA	ANAGEMENT - Planning			
		determination and evaluation of performance indicators		
		preparation of performance reports		
12.15	Planning	The process of formulating plans relating to the Safety Management function. Includes:		
		<ul> <li>determination of services, needs and solutions to those needs</li> </ul>		
		<ul> <li>feasibility studies and reports generated as a result of the planning process</li> </ul>		
		See DA 2157 Disposal Schedule for Common Administrative Functions for overall planning to achieve TasRail objectives.		
		See <b>SAFETY MANAGEMENT - Incidents</b> for the implementation of emergecy response plans relating to an incident.		
		See <b>SAFETY MANAGEMENT - Emergency Management</b> for organising, carrying out, evaluating and reporting on safety or emergency training exercises or simulations.		
12.15.1		Records documenting the development and provision of plans relating to safety management. Includes:	Temporary	Destroy 7 years after action completed.
		research information		

No	Function/Activity	Description	Status	Disposal Action		
SAFETY MA	SAFETY MANAGEMENT - Reporting					
		feasibility studies and reports				
		major drafts				
		consultation documents				
		final plans				
		Examples of plans include:				
		Emergency Management Plan				
		Fatigue Risk Plan				
		Health and Fitness Plan				
12.16	Reporting	The processes associated with initiating or providing reports relating to the Safety Management function.				
		See <b>BOARD &amp; GOVERNANCE - Meetings</b> for reports presented to the Board or Board Committees.				
		See <b>SAFETY MANAGEMENT - Incidents</b> for reporting incidents, near misses and other notifiable occurrences.				
		See DA 2157 Disposal Schedule for Common Administrative Functions for the Annual Report				
		See DA 2158 Disposal Schedule for Short Term Value Records for working papers and draft reports.				

No	Function/Activity	Description	Status	Disposal Action			
SAFETY MA	SAFETY MANAGEMENT - Reporting						
		See SAFETY MANAGEMENT - Evaluation & Reviewing for reports relating to reviews.					
		See <b>RISK MANAGEMENT - Actions</b> for the implementation of risk treatment actions in response to incidents.					
12.16.1		Final versions of non-significant reports relating to Safety Management. Includes:  • internal reports	Temporary	Destroy 7 years after date of issue.			
		<ul> <li>reports to external organisation</li> <li>published reports</li> </ul>					
		See BOARD MANAGEMENT - Meetings or Committees for significant reports relating to Safety Management.					
12.17	Training	The activities associated with all aspects safety training available to external consultants and contractors to TasRail. Includes:					
		online Track Safety Awareness course					
		See DA 2157 Disposal Schedule for Common Administrative Functions for all safety training for TasRail staff.					

No	Function/Activity	Description	Status	Disposal Action
SAFETY MANA	AGEMENT - Training			
		See DA 2157 Disposal Schedule for Common Administrative Functions for qualifications, training and study details of individual employees.  See RAILWAY LAND MANAGEMENT - Access for access by third parties to TasRail land (i.e. Telstra, NBN).		
12.17.1		Records related to the content, delivery and administration of TasRail's online Track Safety Awareness course training for non-TasRail employees.	Temporary	Destroy 7 years after action completed.
